

Summer Camp

The Summer Camp at Little Sprouts Children's Centre is an inclusive summer program open to children of all abilities between 5 and 10 years. As long as space is available, we will accept children regardless of their strengths or challenges as we believe a diverse learning environment is one where children will learn best. Activities are balanced throughout the day between adult-directed tasks where children are exposed to fun and engaging activities within our curriculum and child-led activities where children are encouraged to explore, experiment, be creative, and discover about themselves and the world around them with minimal limitations but supportive boundaries from experienced adults.

The program is offered twice this coming summer for 3 weeks per session as follows:

Session A: June 27 - July 18, 2016

Session B: July 22 - Aug 11, 2016

Children meet from 9AM to 2PM, Monday through Friday. Snacks and lunch will be provided daily for children. However, we ask that children with food allergies and other dietary restrictions bring their own lunch and snacks. Nevertheless, Little Sprouts Children's Centre should also be informed in writing of food allergies and restrictions so that arrangements can be made to avoid exposure.

Fee: One session (A or B) for 33,000 baht plus 7% VAT or both sessions for 64,000 baht plus 7% VAT.

Please contact us to obtain the registration form. Space is highly limited.

Please note: Little Sprouts Children's Centre will be closed on July 19 and 20 to observe Asanha Bucha and Buddhist Lent. Sessions will not be held on these two days.

Intensive Early Intervention

The Intensive Early Intervention Program is a 7-week intensive program that employs evidence-based intervention. This best-practice model provides intervention for children between the ages of 1 and 6 years with developmental challenges with the main objective to help them reach their full potential.

The multidisciplinary team of specialists which comprises of a clinical psychologist, speech and language pathologists, an occupational therapist, and a social worker will work together to design, provide, and supervise each child's individualized program. Parents are encouraged to join their child's case conference held 3 times during the program. For children younger than 2 years, parents are also highly encouraged to attend sessions in order to learn strategies to practice at home.

Each week, the child will receive 15 hours of intensive intervention. Children attend sessions from 9AM to 12PM daily, Monday to Friday. Distribution of session hours depends largely on each child's individual needs but may look as follows:

- 3 hours of Individual Speech Therapy
- 2 hours of Social Communication/DIR Floortime
- 2 hours of Individual Occupational Therapy
- 3 hours of Individual Behavior Therapy
- 5 hours of School Readiness Skills

The 7-week sessions are held from June 27th to August 11th. Sessions are held in English only. Fee: 200,000 baht plus 7% VAT. This fee also includes individualised program development and three half-hour case conferences which parents are invited to attend.

Little Sprouts Children's Centre is a peanut-free campus. Please do not bring food that contains peanut as an ingredient onto our campus. We have children with severe peanut allergy and would like to keep our space safe for them.

Inclusive Playgroup

Starting August 2016, Little Sprouts Inclusive Playgroups will be open to children of all abilities between the ages of 12 months to 4 years old. Each child must be accompanied by at least one adult. Meeting times are as followed:

Seedlings Group (1-2yrs): Tuesday 10AM to 11AM.

Sprouts Group (2-4yrs): Tuesday 11AM to 12PM.

Little Sprouts Inclusive Playgroup is different from other playgroups available throughout Bangkok in that it is led by specialists on our multidisciplinary team who not only can provide great parenting and development-boosting tips to parents attending the group but can also help detect developmental delays or concerns in young toddlers and help address those issues right away. Furthermore, the developmentally diverse yet accommodating and flexible setting provides an invaluable experience for young children of the new era. The inclusive dynamic promotes social and emotional development, empathy, and other emotional intelligence skills that a typical homogeneous setting can only address to a limited extent.

Fee: 400 baht for a parent-child pair. Cash only (Please bring exact change). Reservation is required and must be made at least one day in advance. New members, please arrive 10 minutes early to fill in our intake form.

Nursery & Preschool

Little Sprouts Nursery & Preschool Program is currently a pilot program and is open to children of all abilities between the ages of 2 and 4 years. The program follows the Bank Street preschool approach inspired by John Dewy's philosophy on education. Our curriculum can be individualised based on the children's interest and stage(s) of development. The emphasis is on impacting the child holistically, that is emotionally, socially, physically and intellectually through exploration and interaction in an experience-based and collaborative setting.

The uniqueness of our program is that it is supported by our interdisciplinary team of specialists which includes a speech therapist, a psychologist, an occupational therapist, and a social worker. In order to keep the group size small, we are accepting no more than 8 children per group at this time. The small group size and high adult to children ratio allow us to engage each child more closely at the individual level. Children with exceptional developmental needs also have the benefit of having our specialists and services available on site, both for direct intervention and consultation with program facilitators.

The regular nursery and preschool program runs year round Monday - Friday, 9AM to 3PM, in a trimester format. Each trimester is 15-16 weeks long. The current pilot program, however will only run for 7 weeks from June 27 - August 11, 2016.

Instruction is in English except for the twice-weekly Thai immersion class. Fee: 19,000 baht per month or 68,000 baht per trimester (15-16 weeks). Promotion: The 7-week pilot program is being offered for 25,000 baht. This fee does not include snack or lunch. For more information or registration, please contact us.
